

INTRODUCTION AND CHANGE OF THESIS TITLE

The thesis title will be entered through [THESIS](#) by means of the Thesis Title Change Request (Solicitud de Cambio de Título de Tesis). Once validated by the student, it only requires final validation from the Director (it does not reach the CAPD).

This same request can be used to change the title if the doctoral student and the supervisor consider that a new title better adapts to the content of the Thesis.

IMPORTANT: To avoid problems when depositing the Thesis, it is advisable to check that the title in the system is identical to the title of the final document of the Thesis that is deposited with accents, punctuation marks,...
